

## BVSNW

BVSNW was formed in 1997 as a direct result of the continual search by Black and Minority Ethnic (BME) groups and communities for a solution to the prejudice, discrimination and racism that they experienced. Since its inception the organisation has moved on into embracing a more multi stranded and holistic approach to achieving its goals.

We offer:

- Packages or tailor made Equalities and Diversity Training
- Consultancy on engagement and participation of BME communities in Wales, including research, mapping exercises, etc.
- Capacity building, training, project development, action planning and governance for BME groups.
- A strategic role to incorporate the needs of BME communities within National policy and strategy.
- A Wales-wide membership network of individuals, community groups and cross-sector organisations.

BVSNW has grown into an important resource for organisations and individuals across Wales and in particular for the BME population.

- Rôl strategol i ymgorffori anghenion y cymunedau ELD o fewn y strategaeth a pholisi cenedlaethol.
- Rhwydwaith o unigolion, grwpiau cymunedol a mudiadau traws sector.
